

**World Handicap System**  
**(change effective 1<sup>st</sup> April 2024)**

The Course Handicap calculation is changing so that it is:  
“*relative to par, making a golfer’s target score to ‘play to handicap’ more intuitive*”

The New Course Handicap calculation will be adjusted by:  
**‘ COURSE RATING (CR) minus PAR ‘**

**Club Competitions:**

Course Handicaps will be adjusted thus:

White Tees (CR 70.2 minus PAR 70) = adjustment 0.2 added

Yellow Tees (CR 67.9 minus PAR 70) = adjustment 2.1 deducted

Red Tees (CR 71.0 minus PAR 70) = adjustment 1.0 added

Playing Handicaps will continue to be calculated in ClubV1 / HowDidiDo however the adjusted Course Handicap will be calculated to one decimal place and the appropriate competition handicap allowance will then be applied to give a more accurate rounded Playing Handicap i.e. the Course Handicap will not be rounded before the Playing Handicap is calculated.

**General Play / Casual Rounds:**

The adjusted Course Handicap will be automatically calculated for a player by ClubV1 / HowDidiDo / MyEG when the player signs in. (No Playing Handicap Allowances are applied for these rounds!)

**New updated Course Handicap tables will be displayed at the entrance to the clubhouse.**
